SUMMARY

Full-Stack Developer skilled in HTML5, CSS3, JavaScript (ES6+), React, Python, Django, MySQL, and Firebase. Experienced in translating designs into clean, responsive UI components. Comfortable working across the stack — from building reusable front-end components to integrating authentication and databases. Fast learner who ships working software independently and in teams.

SKILLS

Front-End: HTML5, CSS3, JavaScript (ES6+), React, Bootstrap, Responsive Web Design, UI Component Design

Design Reference: Figma (extracting layout specs, typography, colors, and image assets for development)

Back-End & Data: Python, Django, MySQL, Firebase (Auth, Firestore)

Tools & Workflow: Git, GitHub, VS Code, Vite, Live Server, Chrome DevTools (responsive testing, console debugging)

Core Strengths: Problem-Solving, Logical Thinking, Time Management, Adaptability, Teamwork, Communication

EXPERIENCE

Profenaa Technologies — Python Full-Stack Development Intern

Jan 2026 – Jul 2026

Tiruppur, Tamil Nadu

Tools: HTML, CSS, JavaScript, Bootstrap, Python, Django, MySQL

- Translated full-stack training into practice, applying JavaScript, Python, and Django concepts across real assignments and mini-projects.
- Engineered responsive UI components with HTML, CSS, and Bootstrap, validating layouts across breakpoints using Chrome DevTools and Live Server.
- Strengthened backend fundamentals by applying Django and MySQL to real assignments, working directly with server-side logic and relational data handling.

PROJECTS

DevVault AI — Full-Stack Developer Productivity Platform

Jul 2026 – Present

React, Vite, Bootstrap, JavaScript, Firebase

- Architecting a full-stack SaaS-style developer productivity platform, unifying project, task, and profile management into a single dashboard.
- Implemented secure authentication with Firebase Auth and engineered a scalable, component-based React architecture.
- Extending the platform with Firestore data integration and an AI-powered assistant to broaden core functionality.

Montessori School Website

Mar 2026

HTML, CSS, Bootstrap, Figma

- Delivered a responsive, four-section school website (admissions, programs, events, contact), translating Figma specs into accurate layouts and typography.
- Engineered reusable layout components and validated responsive behavior across breakpoints using Chrome DevTools' device toolbar.

Personal Portfolio Website

Jun 2026

HTML, CSS, JavaScript, Bootstrap

- Designed and developed a four-section personal portfolio (About, Skills, Projects, Contact) using HTML, CSS, JavaScript, and Bootstrap.
- Engineered JavaScript-driven project search and filtering, enabling visitors to browse and switch between projects instantly without a page reload.
- Built a functional contact form routing visitor messages directly to email, plus a one-click resume download for faster recruiter access.

CERTIFICATIONS

Python Full-Stack Development — Internship Certificate, Profenaa Technologies (2026)

EDUCATION

B.E. in Electronics and Communication Engineering

2026

Kumaraguru College of Technology, Coimbatore, Tamil Nadu

CGPA: 6.82 / 10

Higher Secondary Certificate — SVV Higher Secondary School, Gobichettipalayam, Tamil Nadu

2022 | 88.17%

Secondary School Leaving Certificate — SVV Matric School, Gobichettipalayam, Tamil Nadu

2020 | 87.40%
